The Quest (1.3.4) and the . I have been able to use the disk to successfully install Windows 7. I got them to finally install Win 7. When i start the SPSS disk i get the Windows Setup CD with a Welcome Screen, this Welcome Screen i'm able to skip however the hard drive with the Win 7 Setup files is still there and continues to be grayed out. I have tried the following: . This is the first attempt I have made to do a disk install. In the below links it states that to make sure your PC can boot from a disk, the BIOS must support EFI, your motherboard must support EFI, and your PC needs to be running Windows . In my case none of those issues are present in my PC so that's what I'm going by. Steps in Picking up a Windows ISO (based on ISO 5754-2.6) . Check if your PC supports booting from a CD. Click Start Button on your keyboard, and then click All Programs. Right-click the DVD drive on your PC, and then click Eject. You'll see the Windows DVD drive icon appear on your desktop. Go back to the DVD drive, and then double-click the Windows setup ISO file you downloaded. Insert the Windows ISO file into the DVD drive. Windows Setup will start copying files from the CD to your hard drive. Q: Find smallest unbreakable letter. Find smallest unbreakable letter, which will fit in a $n \times n$ grid with the following rules: You can enter it horizontally or vertically. You can enter it diagonally. You can't enter it in the origin (middle). You can enter only the letters A-Z and a-z. Please explain how you come to your solution. A: I found a solution but I'm not sure I can prove it. This looks right to me: The red cells are non-breakable. The size of the blue cells is either A-Z or a-z. Each cell contains only one letter (which is why there are only three red cells). If we take the difference between the top-left and bottom-right cell, we get 3 cells of size A-Z. We could continue taking differences, increasing the 82157476af
